

TRUST THE EXPERTS

You have the right to choose where and how your vehicle is repaired. Only Nissan Certified Collision Centres have been validated and approved by Nissan to have the tools, training and knowledge to repair your vehicle properly. For a timely, high-quality repair, we recommend choosing a Nissan Certified Collision Centre.

SOPHISTICATED TECHNOLOGIES REQUIRE SKILLED REPAIRS

Nissan's Safety Shield® Technologies rely on sophisticated sensors, radars and cameras located throughout the vehicle. It's imperative your vehicle is repaired and recalibrated to manufacturer specifications by skilled and trained professionals after a loss.

CHOOSE THE RIGHT PARTS

To keep your Nissan performing as designed, insist on new Genuine Nissan Parts from the body shop you choose, and from your insurance company. Only Genuine Nissan Parts are specifically designed and engineered to integrate with Nissan's sophisticated performance and safety systems, and meet Nissan's stringent requirements for fit, finish, structural integrity and corrosion protection.
